

Albuquerque Museum Object Detail Report

Jar with Deer and Flowers

Date

1994

Primary Maker

Barbara Cerno

Medium

fired red clay with mineral pigments

Dimensions

12 × 11 1/4 × 11 1/4 in. (30.5 × 28.6 × 28.6 cm)

Object number

PC2022.44.7

Description

A ceramic jar with bulging upper and lower portions, cinched around the middle of the vessel. Adorning the white background are several white tail deer depicted in black. The deer walk above and among an abstract landscape of geometric motifs, including black fine-line flowers and corn, zig-zag bands of red and orange, orange triangles, and small black nodes. The lip of the vessel is corrugated and the interior and base are an orange-brown color.
